Still got some energy? Hit the desert to pump your pedals in *BMX Bike Racing*. Then wind up a whirlwind tour at Yosemite for a fling with the *Flying Disk*. That's six massive events. You're gonna have your hands full. Not to mention your feet!

THE GAMES

HALF PIPE SKATEBOARDING

Grab your skateboard and kneepads—it's time to hit the half pipe! Combine strength with agility for a really radical romp on the ramp!

Object: Ride the board back and forth on the ramp, and perform stunts using skill and timing. You have a 1-minute, 15-second time period, or three falls, to score as many points as possible.

To start the event, press **BUTTON A**.

To gain speed, press the control pad **UP** as the skater goes up the ramp, then **DOWN** as the skater goes down.

To perform a stunt, use the controls as shown in the diagram on the next page. Timing is critical!

You'll fall if you don't start or complete a stunt within the time allowed.

IMPORTANT: Face *left* to perform a stunt on the *left* side of the ramp; face *right* to perform a stunt on the *right* side of the ramp.

Kick Turns: Press and hold the control pad **LEFT** or **RIGHT**, depending on which side of the ramp you're on. The skater will turn around to face the opposite direction. Release the pad to complete the turn.

Aerial Turns: Perform these turns in the same way as kick turns—except you must “catch air” to perform a successful aerial turn. That is, you must wait until you're off the lip before pressing the control pad.

Hand Plants: Press and hold **BUTTON A** as you approach the lip of the ramp. The skater will plant his hands on the lip and flip the board over his head. Release **BUTTON A** just after the board arcs over and returns to the ramp.

Scoring: Earn maximum points by taking risks. Wait until the last second to start each stunt—and complete it just before you would have wiped out. Some stunts are more difficult and earn higher scores than others.

Scoring is as follows:

Kick Turn: 100-300 points
Hand Plant: 400-700 points
Aerial Turn: 400-999 points

Strategy: It's important to build up enough speed for each stunt. To gain speed quickly, do a “fakie” by pressing and holding the control pad **UP** or **DOWN** the full length of the ramp. Don't go too fast, or you'll wipe out!

FOOT BAG

Kick back with some fast footwork in the Foot Bag event! It's a lot like juggling with your feet. Can you keep the bag bouncing while you perform a variety of stunts?

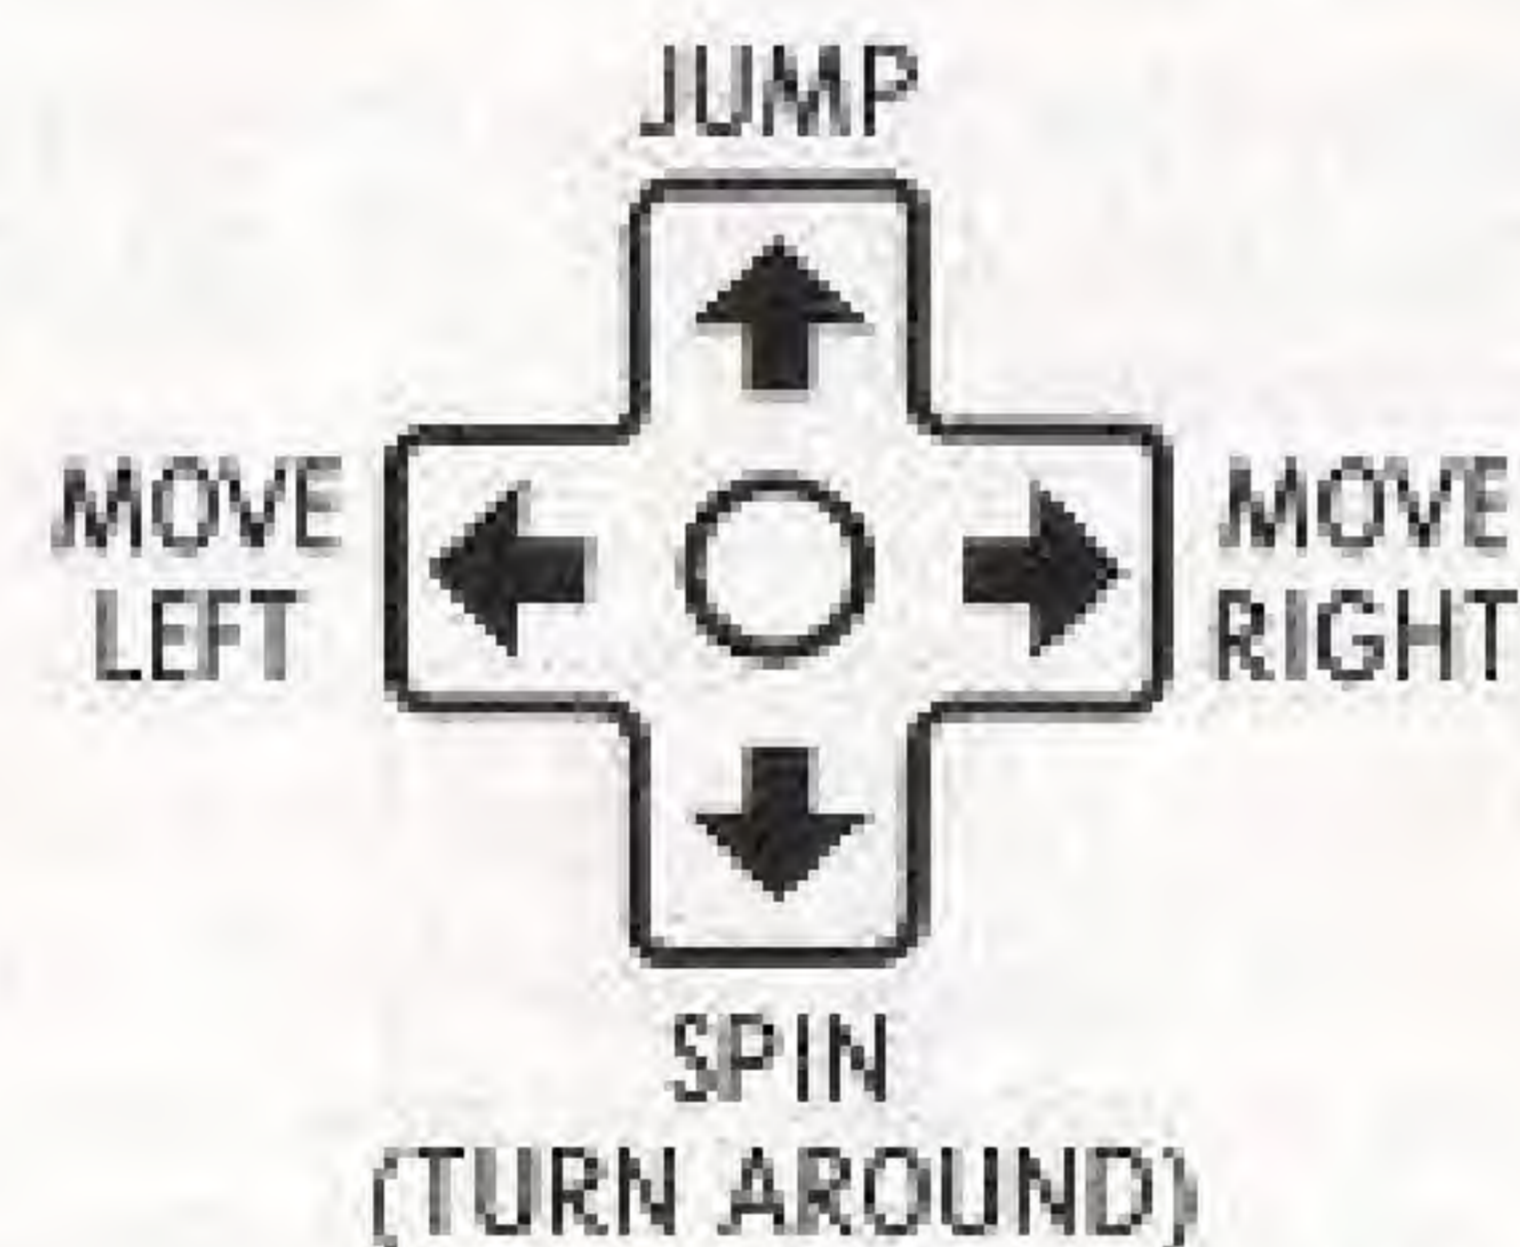

Object: Bounce the foot bag off your head, knees and feet. Do as many kicks and stunts as you can within the 1-minute, 15-second time period.

To start the event, press **BUTTON A** for the kick-off.

To kick the bag, press **BUTTON A** as the bag falls toward the ground—just before it reaches your head, knee or foot.

To perform a head butt, press **BUTTON A** just before the bag drops below the level of your head.

To perform a stunt, change position while the bag is in the air. For example, do a half axle by pressing the control pad **DOWN** to turn around before your next kick.

Scoring: You earn points for each successful kick and stunt. More difficult stunts earn higher scores. You lose time if you drop the bag or kick it off the screen. Stunts are explained on the next page.

Any Kick: (10 points)

Half Axle: (250 points) Any two kicks with a half spin in between.

Full Axle: (500 points) Any two kicks with a full spin in between.

Axle Foley: (750 points) Any two kicks with one-and-a-half spins in between.

Horseshoe: (500 points) Left back kick + right back kick.

Jester: (2000 points) Left jumping kick or right jumping kick.

Double Arch: (2500 points) Left outside kick + right outside kick + left outside kick.

Doda: (5000 points) Left outside kick + head butt + right outside kick.

Dizzy Dean: (1500 points) Front head butt + back head butt.

Head Banger: (1500 points) Back head butt + front head butt.

Catch from off screen: (1500 points)

Strategy: The more complicated stunts and kicks you can complete before time runs out, the higher your score will be. Special bonus points are awarded for variety, so do as many different stunts as you can.

SURFING

Surf's up! Are you up to pitting your board against a totally massive wave? You'll shoot the curl, shred the tube—or eat a little sand, if the going gets gnarly!

Object: Ride the wave as long as you can, “using” it to your best advantage. You have a 1-minute, 30-second time limit, or 4 wipeouts, to score points.

To start the event, press BUTTON A. Press the control pad LEFT immediately, to avoid wiping out as your ride begins.

To steer left, press the control pad LEFT.

To steer right, press the control pad RIGHT.

To make sharper turns, press and hold down BUTTON A as you turn. Note that sharp turns slow you down.

To end your ride cleanly, go over the top of the wave just before time runs out.

Catching air: If you clear the crest of the wave, you can “catch air,” then catch the wave again. Try a 360° turn while you're up there!

Wiping out: Don't ride too close to the bottom of the wave or too far inside the curl, or you'll “wipe out.” You'll also wipe out if you land at the wrong angle after “catching air.” It takes practice to avoid wipeouts!

Scoring: Points are awarded for the length of your ride, the number of turns you make and your speed during turns. You'll score high for catching air. Riding the tube (underneath the curl) and riding near the break earn extra points, too.

Strategy: The better you “use” the wave, the more the judges will rave! A safe, straight ride far ahead of the break counts for very little. Take risks, avoid wipeouts, and your score will be awesome!

ROLLERSKATING

Strap on your skates for some radical rollerskating on the boardwalk! The trick is to skate while avoiding sand, cracks, banana peels—even runaway beach balls!

Object: Skate the length of the boardwalk while avoiding obstacles. Score extra points for jumping and spinning over obstacles. The event ends after your third fall.

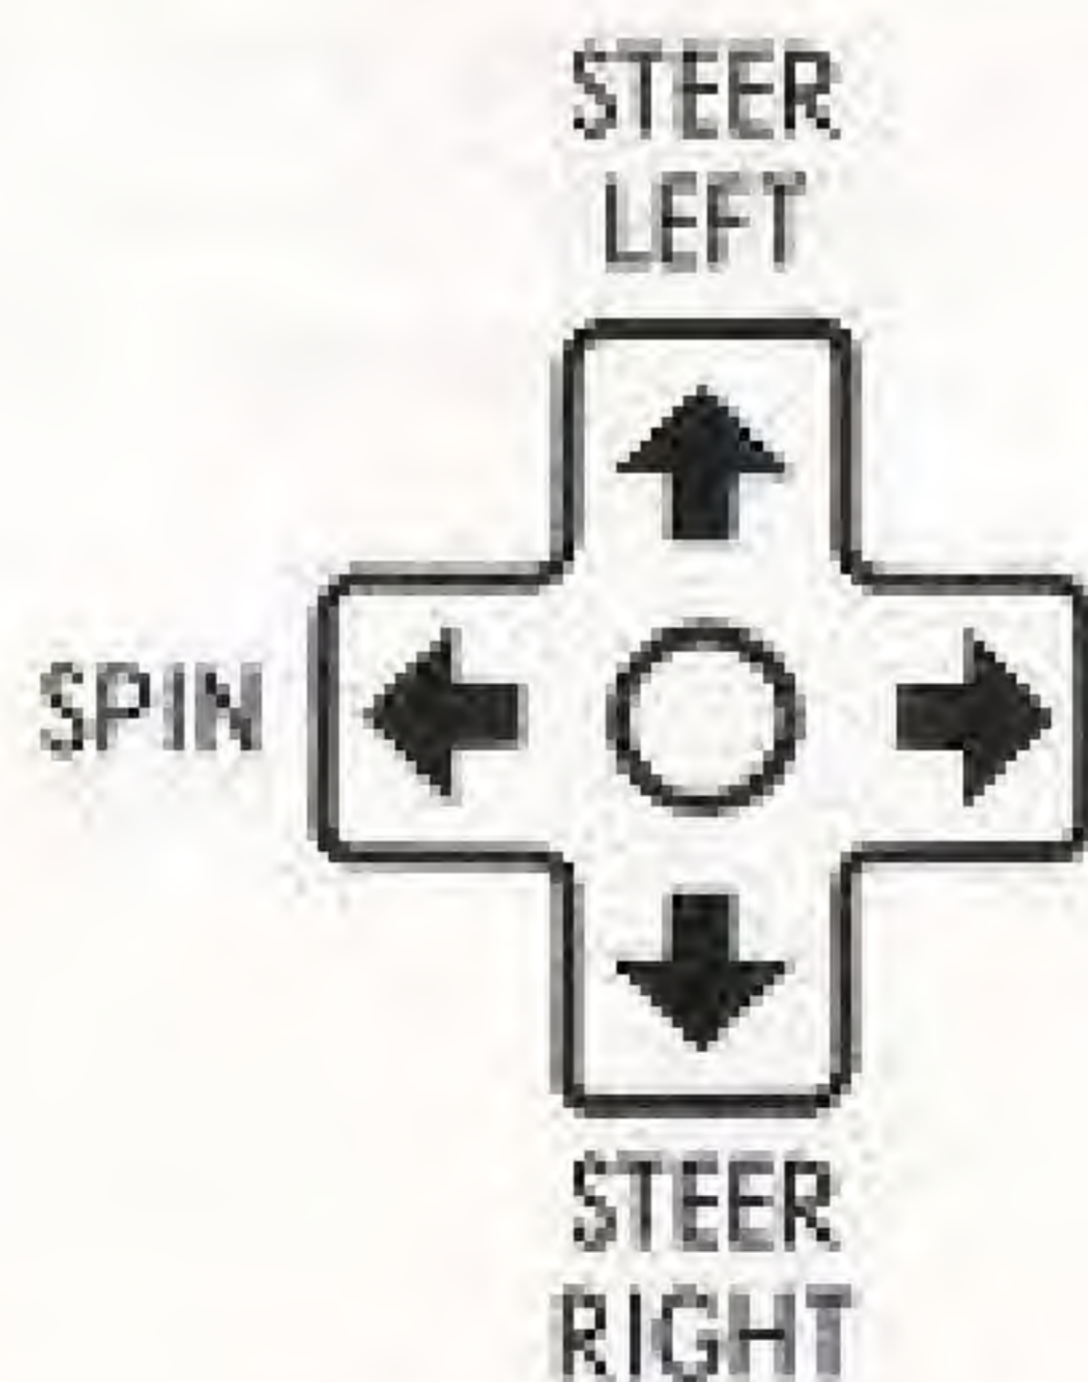

To start the event, press BUTTON A.

To begin skating, repeatedly press BUTTON A in rhythm to the skater's legs. Keep pressing BUTTON A to gain speed.

To squat, press and hold down BUTTON B. Do this to begin a jump—or to avoid bouncing beach balls in your path.

To jump, release BUTTON B.

To steer and to spin while jumping, press the control pad as shown below.

Scoring: Score points for each obstacle you avoid. Earn double points for jumping over them. Earn the *most* points for *spinning* while you jump! Points are awarded as follows:

Avoiding obstacles: 10-30 points

Jumping over obstacles: 20-60 points

Spinning jumps over obstacles: 40-120 points

Strategy: Speed is less important than staying on your feet. Tackle the course slowly at first. Then build up speed and master stunts with plenty of practice!

BMX BIKE RACING

BMX stands for Bicycle Motocross. It also stands for aggro action and hair-raising stunts! It takes guts, endurance and a super sense of timing to complete this course. Don't forget your crash helmet!

Object: Finish the course within the 2-minute time period, while avoiding obstacles and performing stunts. Three "easy" falls or 1 "serious" fall will end the event.

To start the event, press **BUTTON A**.

To maneuver your bike on the ground, do the following:

- Press the control pad **UP** to steer left.
- Press the control pad **DOWN** to steer right.
- Press **BUTTON A** repeatedly to increase your speed.
- Press the control pad **LEFT** to perform a wheelie.

You won't earn any points by steering around obstacles. You *will* earn points by jumping over them---especially if you do a stunt while you're in the air!

To jump, press **BUTTON B**.

To perform a stunt while you're in the air, press the control pad as shown below.

Timing is critical to perform jumps and stunts! If you're not back in a "centered" position by the time you land or complete your stunt, you will crash!

Ending the race: You're allowed three "easy" falls or one "serious" fall before you're out of the race. If you flip and fall on your head, it's a serious fall!

At the end of the course, press **BUTTON A** to stop. You'll earn bonus points for stopping on the finishing pad.

Scoring: The faster you go, the higher your score will be. If you finish the course, you'll earn 60 bonus points for each second remaining on the clock. You also earn points for each stunt, plus

bonus points for holding each stunt as long as possible. Points are awarded as follows:

Wheelie: 100-200 points

Jump: 200-400 points

Table Top: 500-1000 points

360° Turn: 1000-2000 points

Backward Flip: 1500-3000 points

Forward Flip: 3000-6000 points

Strategy: Finish the course as fast as possible to score high. The highest scores will go to riders who perform the most daring stunts. Complete a 6000-point forward flip, and you've probably got a lock on the first place trophy!

FLYING DISK

You can hardly visit a California park or beach without seeing dozens of flying disks whirling through the air. It's the perfect challenge to wind up the California Games competition!

Object: You control both the thrower and the catcher. The object is to throw the disk accurately, then catch it! You're allowed 3 throwing and catching attempts.

To start the event, press BUTTON A.

Throwing the disk: First, try to throw the disk far enough to reach the catcher at the other end of the field. Use the colored Speed/Angle bar at

the bottom of the screen to execute your throw. The green sections will provide the most powerful (but not necessarily the most accurate) throw. Here's how to throw, using green sections as an example:

- Press the control pad LEFT to start swinging your arm back.
- When the needle reaches the green section of the Speed bar, press the control pad RIGHT to swing your arm forward.
- When the needle reaches the green section of the Angle bar, quickly press the control pad LEFT, to release the disk.

Catching the disk: The display at the top of the screen shows the disk flying toward the catcher. Watch this display to guide your catch. Here's how to catch:

- As the disk flies across the field, press the control pad LEFT or RIGHT to run toward the place where you think the disk will land.
- As the catcher, you must touch the disk with your hand while running, diving, or raising your hand over your head.
- To dive after the disk, press BUTTON A.
- To attempt an overhead catch, press and hold the control pad UP to raise your hand.

Scoring: Points are awarded for both the throw and the catch. Throwing points are awarded for height and accuracy. The fewer steps the catcher takes to catch the disk, the higher your score.

Catching points are awarded as follows:

While running right - 150 points

While running left - 250 points

While diving right - 250 points

While diving left - 350 points

Overhead catch - 350 points

Strategy: To earn the most points, throw the disk close to where the catcher is standing. Then make a diving or overhead catch!

AWARDS AND RECORDS

AWARDS CEREMONY

After every event, trophies are awarded to the top finishers in the order that they placed. Each trophy is worth the following number of points toward the CHAMPIONSHIP CEREMONY:

Each 1st place trophy - 5 points

Each 2nd place trophy - 3 points

Each 3rd place trophy - 1 point

CHAMPIONSHIP CEREMONY

After competition is over, each player's trophy points are totaled. The player with the most trophy points is awarded a final championship trophy for the best overall score.

HIGH SCORES

Names and scores of record-breaking players are displayed on the High Scores screen. Whenever a new record is set, the new record replaces the old record. High Scores are erased at the end of each play session.
